## Flooding causes closures at Canyon Lake

FORT WORTH, TX – Due to extreme flooding in the Canyon Lake area, the U.S. Army Corps of Engineers has closed all its recreation facilities, just one day before the 4<sup>th</sup> of July holiday weekend begins.

Effective immediately, all Corps of Engineers campgrounds, day-use areas and boat ramps at Canyon Lake are closed. The Corps regrets the closings but facilities are under water and unusable.

In session today, the Comal County Commissioners Court has instructed the county engineer's office to close all eight county-operated boat launch sites at Canyon Lake due to the flood pool.

For information on other recreation opportunities in Comal County, go to the following websites:
